EMC@aldi.us

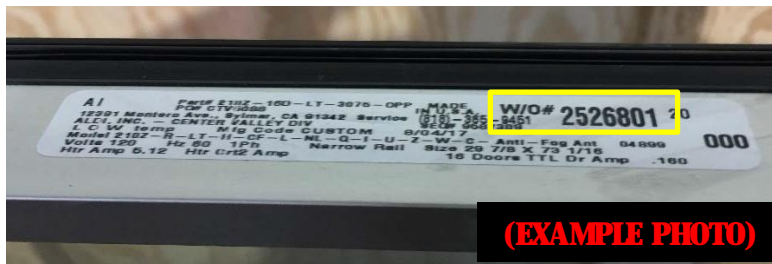

Anthony Doors Replacement LED Order Form

Below is a 4-doorframe section. A typical 16-doorlineup has (4) 4-doorframe sections. Viewing from the customer's side, black arrow is left end light, yellow arrow is right end light, the red arrows are center lights. Each 4-door frame section has (1) left, (3) centers, and (1) right light, so a 16-door lineup will have (4) left lights, (12) center lights, and (4) right lights.

Original work order # is 7 digits, and can be found on the inside of the door on top right side

The batch # is the white tag. The model # is the yellow tag. A picture with both tags is required.
